William Brewster Esq

Dear Sir

Your very kind letter of yesterday is received.

I do not believe that we can count very extensively upon bird game pictures, so that I think some pictures of camp scenes and of the scenery frames to Stanstead will be of interest. The bird pictures would certainly be of interest and we would certainly comply with your request as to publication if you cared to send them to us.

Any contribution you would send would be gratefully received

Very cordially

Joseph Prince Loud
